Subject: Conversation with Connolly, Scott
Date: Wednesday, April 27, 2016 11:04:43 AM

St. Peter, Marie 8:57 AM:

are you bogged down with cases already?
i want to go on some inspections. don't know who to ask (besides well everyone I guess)

Connolly, Scott 9:01 AM:

Well i have plenty to do but I like getting out of the office and going on inspections. Plus all the cases i have currently are moving very slowly...
Id be down to go on a couple if you need someone to go with. i am not really available for the next 2 is weeks tho

St. Peter, Marie 9:01 AM:

yeah, thats fine. middle of may is what works for me too.
lemme look into some stuff and then i'll get back to you. are there any states or areas that you want to go to?

Connolly, Scott 9:04 AM:

Umm nothing particular. I looked in to Southern IN near KY b/c im going with Ken at some point. other than that I haven't been doing much targeting.
Actually Nathan/George might want me to go to Galesburg, IL to do some lead inspections Ill have to check on that tho.
They wanted me to target anything that might emit lead but theres not much there so it might just be some small sources to show our presence.

St. Peter, Marie 9:07 AM:

oh god, galesburg is in the middle of nowhere
i can try to find some things around the area. IL is I think the only state I haven't targeted anything in. but that's fine

Connolly, Scott 9:08 AM:

What about your Yacht initiative?

St. Peter, Marie 9:08 AM:

uhm, yeah i've already targeted a yacht place and two boat facilities.
They're in Michigan and Wisconsin though
I told Breneman and Brian about it during my quarterly commitment meeting. They appreciated it.
I also guess I should go to Pilkington eventually

Connolly, Scott 9:13 AM:

I have one place in/near toledo that I need to go to also. That other Johns Manville Plant needs an inspection and id like to get more opacity violations from them.

St. Peter, Marie 9:18 AM:

Ooo, we could potentially go to the place where they make seagram's at on the way there.

Connolly, Scott 9:19 AM:

distillery?

St. Peter, Marie 9:21 AM:

yeah, its a distillery
<https://echo.epa.gov/air-pollutant-report?fid=110000767206>

Connolly, Scott 9:22 AM:

is that MGPI of Indiana?

St. Peter, Marie 9:23 AM:

yes

Connolly, Scott 9:23 AM:

They are on the national priority facility list for 2014 for VOCs

St. Peter, Marie 9:24 AM:

yaaas

i don't know if thats good or not actually

they had an inspection about 3 years ago. i was going to look into psd stuff

Connolly, Scott 9:25 AM:

it means they are in the top emitters in the country for VOCs. I just heard that it is hard to find stuff on distilleries cause the regs suck

Look to see if their emissions have increased then i think id be a good target for PSD

also 900 tons of vocs is "yuuuge"

St. Peter, Marie 9:26 AM:

yeah, look at their difference between 2008 and 2011

it's an increase in VOC of 225.6 tons

they had some permitting done recently. i need to look into what it says happened and what they submitted to the state

St. Peter, Marie 9:30 AM:

oh wow, their VOC emissions in 2014 was 1,497.5 tons

sooo, things happened

Connolly, Scott 9:34 AM:

the priority list from 2014 has them at 961, which is that same as the ECHO 2011 emissions. Did you talk to Virginia about their emissions increase. Doesn't she get the most recent emissions data?

St. Peter, Marie 9:45 AM:

i'm looking at EIS

which is what she uses to target based on PSD

St. Peter, Marie 9:50 AM:

i think the priority list uses NEI data. I am looking at INDEM data

St. Peter, Marie 10:16 AM:

Uhm, so I guess we can set up a meeting for when you get back or maybe the following week?

Connolly, Scott 10:20 AM:

yeah next week we can meet and talk about where we want to go and stuff.

Thursday next or Friday next week?

St. Peter, Marie 10:21 AM:

Sure, I'll make a meeting for Thursday next week but can reschedule if more pressing things come up for either one of us.

Connolly, Scott 10:23 AM:

ok i dont think i have much going on next week except for catching up on things i missed on the days i was out. I think ill be busier the following week cause im getting 114s back then. so if we can get a rough plan next week itll be good.

St. Peter, Marie 10:24 AM:

ok, i'm gonna send you the meeting invite in a second

Connolly, Scott 10:39 AM:

its gonna be such a struggle to find a car... we might have to rent one...

everything is booked until may 29 pretty much

St. Peter, Marie 10:43 AM:

dannnggg, we should contact superfund and ask for a suburban

beep beep

Connolly, Scott 10:44 AM:

i can get something 5/31-6/2 should i just go ahead and reserve it?

St. Peter, Marie 10:45 AM:

yeah, i guess that works for the moment.

we'll just work out potential options next week, i

i'm not really worried about it

also, your reservation is currently for 5/31 and 6/1

Connolly, Scott 10:52 AM:

weird, its definitely wrong on the calendar. the reservation sheet says 5/31-6/2

St. Peter, Marie 10:52 AM:

hmm, thats weird!
